What Does Your Chamber Do?

Many people, businesses and organizations believe the Chamber gathers statistics, prints brochures, visits new businesses, answers inquiries and advertises what a great place the local area is in which we work and live. They are right but the primary function of the Chamber goes far deeper.

The Chamber of Commerce is a catalyst – a common vehicle through which businesses, professional people, organizations and citizens work together for the common good of the community. A better community means better economic conditions, and the Chamber works towards a better community for everyone. This also allows greater communication between groups and businesses to successfully coordinate events and happenings in the community and work together cooperatively.

The Chamber lobbies government on behalf of its membership, educates the community about business issues, and hopes to attract people to our centre to ensure a successful business environment and have the community grow and thrive.

Why Become A Member?

A Chamber membership delivers a comprehensive benefits package by offering member discounts, business referrals, and networking opportunities. Membership is open to all businesses, professionals, organizations and citizens in the area.
